This collection of information is required by 37 CFR 1.414 and 1.491-1.492. The information is required to obtain or retain a benefit by the public, which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. § 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 15 minutes to complete including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

**PETITION BY JOINT INVENTOR FILING ON BEHALF OF OTHER
JOINT INVENTOR WHO REFUSES TO JOIN IN APPLICATION OR CANNOT BE
REACHED (37 C.F.R. §1.47(a))**

Dear Sir:

I, Graeme Leslie EVANS, the second joint inventor of the above identified application, hereby signs below and petitions to make this application on behalf of the first non-signing joint inventor, namely, Igor Lvovich SKRYABIN who refuses to join in this application.

This petition is accompanied by proof of the pertinent facts, set forth in the accompany Statement of Facts in Support of Filing on Behalf of Non-signing Inventor (37 C.F.R §1.47), and the last known address of the non-signing inventor.

The associated petition fee set forth in §1.17(g) in the amount \$200, as required by 37 C.F.R. §1.47(a), is paid herewith.

Respectfully submitted,

Date

7/02/07

In re application of: Igor Lvovich SKRYABIN and Graeme Leslie EVANS
For: METHOD FOR ELECTOLYTIC ENGINEERING OF NANO-PARTICULATE LAYERS

the specification of which:

(check and complete (a), (b), or (c))

- (a) ☐ is attached ~~hereto~~ ^{effectively}
(b) ☒ was filed ~~on~~ ^{on} Dec. 17, 2004 as Application Serial No. 10/583,121
and was amended on _____ (if applicable).
(c) ☐ was described and claimed in International Application No. _____
filed on _____ and as amended on _____ (if any).

**STATEMENT OF FACTS IN SUPPORT OF FILING
ON BEHALF OF NONSIGNING INVENTOR (37 C.F.R. § 1.47)**

NOTE: This statement as to the pertinent facts concerning the refusal of the nonsigning inventor to join in the application or where the omitted inventor cannot be found or reached must accompany the declaration signed on behalf of the omitted inventor by a joint inventor or by a legal representative who shows a proprietary interest. Where the entity with a proprietary interest executes the declaration on behalf of the omitted inventor there must also be a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage. 37 C.F.R. §§ 1.47(a) and (b).

NOTE: "The statement of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein. Statements based on hearsay will not normally be accepted. Copies of documentary evidence such as internet searches, certified mail return receipts, cover letters of instructions, telegrams, that support a finding that the nonsigning inventor could not be found or reached should be made part of the statement. The steps taken to locate the whereabouts of the nonsigning inventor should be included statement of facts. It is important that the statement contain facts as opposed to conclusions." MPEP, § 409.03(d), 8th Edition.

This statement is made as to the exact facts that are relied upon to establish the diligent effort made to secure the execution of the declaration by the nonsigning inventor for the above-identified patent application before deposit thereof in the Patent and Trademark Office.

(check next item, if applicable)

- ☐ Because signing on behalf of the nonsigning inventor is by a person or entity showing a sufficient proprietary interest, this statement also recites facts as to why this action was necessary to preserve the rights of the parties or to prevent irreparable damage.

This statement is being made by the available person having first-hand knowledge of the facts recited therein.

NOTE: The statement "must be signed, where at all possible, by a person having first-hand knowledge of the facts recited therein." M.P.E.P. § 409.03(d), 8th ed. If different persons have first-hand knowledge of different facts, then a declaration from each such person as to those facts he or she knows should be submitted separately.

NOTE: Copies of documentary evidence, such as internet searches, certified mail return receipt, cover letter of instructions, telegrams, etc., that support a finding that the nonsigning inventor could not be reached should be made part of the affidavit or declaration. It is important that the affidavit or declaration contain statements of fact as opposed to conclusions. M.P.E.P. § 409.03(d), 8th ed.

EFFORTS DURING CONVENTION YEAR TO PREPARE APPLICATION AND OBTAIN INVENTOR'S SIGNATURE

NOTE: In cases where priority under 35 U.S.C. § 119 is to be claimed, the 37 C.F.R. § 1.47 applicant should explain what efforts, if any, were made during the Convention year to prepare the application and obtain the inventor's signature thereon. The period allowed by the Convention year should "be sufficient for the preparation and deposit of an application . . . in the form required by the rules." . . . Accordingly, 37 C.F.R. § 1.47 may not be used "to save the parties from the consequences of their delay." M.P.E.P. § 409.03(d), 7th ed.

Griffith Hack Patent and Trade Mark Attorneys assumed conduct of this application on or around February 2006. This was after the expiry of the convention year and I am unsure of what efforts were made to obtain the inventor's signature at that time.

(use Supplemental Page(s), if necessary)

(Statement of Facts in Support of Filing on Behalf of Nonsigning Inventor [1-6]—page 2 of 7)

LAST KNOWN ADDRESS OF THE NONSIGNING INVENTOR

NOTE: MPEP, § 409.03(e), 8th Edition:

"An application filed pursuant to 37 CFR 1.47 must state the last known address of the nonsigning inventor.

"That address should be the last known address at which the inventor customarily receives mail. See MPEP § 605.03. Ordinarily, the last known address will be the last known residence of the nonsigning inventor.

"Inasmuch as a nonsigning inventor is notified that an application pursuant to 37 CFR 1.47 has been filed on his or her behalf, other addresses at which the nonsigning inventor may be reached should also be given."

Full name of nonsigning inventor

Igor Lvovich Skryabin

Last known address of nonsigning inventor

Last known address 76 Schlich Street, Yarralumla ACT 2600 Australia

NOTE: Ordinarily, the last known address will be the last known residence of the nonsigning inventor, but other addresses at which the nonsigning inventor may be reached should also be given in the space below. M.P.E.P. § 409.03(e), 6th ed.

DETAILS OF EFFORTS TO REACH NONSIGNING INVENTOR

NOTE: Complete either these facts or the facts as to REFUSAL OF NONSIGNING INVENTOR TO SIGN APPLICATION PAPERS or both, in applicable circumstances.

NOTE: "The statement of facts must be signed, where at all possible, by a person having firsthand knowledge of the facts recited therein. Statements based on hearsay will not normally be accepted. Copies of documentary evidence such as internet searches, certified mail return receipts, cover letters of instructions, telegrams, that support a finding that the nonsigning inventor could not be found or reached should be made part of the statement. The steps taken to locate the whereabouts of the nonsigning inventor should be included statement of facts. It is important that the statement contain facts as opposed to conclusions." MPEP, § 409.03(d), 8th Edition.

(use Supplemental Page(s), if necessary)

(Statement of Facts in Support of Filing on Behalf of Nonsigning Inventor [1-6]—page 4 of 7)

**DETAILS OF REFUSAL OF NONSIGNING INVENTOR
TO SIGN APPLICATION PAPERS**

NOTE: Complete either these facts or the facts as to **DETAILS OF EFFORTS TO REACH NONSIGNING INVENTOR** or both, in applicable circumstances.

NOTE: MPEP, § 409.03(d), 8th Edition:

"A refusal by an inventor to sign an oath or declaration when the inventor has not been presented with the application papers does not itself suggest that the inventor is refusing to join the application unless it is clear that the inventor understands exactly what he or she is being asked to sign and refuses to accept the application papers. A copy of the application papers should be sent to the last known address of the nonsigning inventor, or, if the nonsigning inventor is represented by counsel, to the address of the nonsigning inventor's attorney. The fact that an application may contain proprietary information does not relieve the 37 CFR 1.47 applicant of the responsibility to present the application papers to the inventor if the inventor is willing to receive the papers in order to sign the oath or declaration. It is noted that the inventor may obtain a complete copy of the application, unless the inventor has assigned his or her interest in the application, and the assignee has requested that the inventor not be permitted access. See MPEP § 106. It is reasonable to require that the inventor be presented with the application papers before a petition under 37 CFR 1.47 is granted since such a procedure ensures that the inventor is apprised of the application to which the oath or declaration is directed. In re Gray, 115 USPQ 80 (Comm'r Pat. 1956).

"Where a refusal of the inventor to sign the application papers is alleged, the circumstances of the presentation of the application papers and of the refusal must be specified in a statement of facts by the person who presented the inventor with the application papers and/or to whom the refusal was made. Statements by a party not present when an oral refusal is made will not be accepted.

"Proof that a bona fide attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient. When there is an express oral refusal, that fact along with the time and place of the refusal must be stated in the statement of facts. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the statement of facts. The document may be redacted to remove material not related to the inventor's reasons for refusal.

"When it is concluded by the 37 CFR 1.47 applicant that a nonsigning inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in the statement of facts in support of the petition or directly in the petition. If there is documentary evidence to support facts alleged in the petition or in any statement of facts, such evidence should be submitted. Whenever a nonsigning inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the petition."

By way of background, inventor Igor Skryabin has already refused to sign application paperwork in connection with United States patent application numbers 10/570,530 and 10/577,971 and I have previously made declarations relating to these applications.

On 10 August 2006 I forwarded by email Combined Declaration, Power of Attorney and Assignment forms in respect of this application being the United States national phase of international application PCT/AU2004/001768. I attach a copy of the email I sent to Igor Skryabin dated 10 August 2006.

(use Supplemental Page(s), if necessary)

Supplemental Page

I received no reply to my email 10 August 2006 and on 16 August 2006 I sent a subsequent email to Igor Skryabin again forwarding him the forms and asking if he would be prepared to sign them. A copy of that email is attached. In that email I also reminded Igor that I had in my possession a copy of an Assignment document signed by him transferring rights to the invention.

On 21 August 2006 I received a letter dated 17 August 2006 from William Szekely of Szekely & Associates. A copy of that letter is attached. In that letter William Szekely refers to emails forwarded to their client on 9 August 2006 and 15 August 2006. I understand that they are referring to the emails I sent to Igor Skryabin.

In his letter of 17 August 2006 William Szekely explains that Igor is an inventor of the invention the subject of international patent application PCT/AU2004/001768. He also explains that inventor Igor Skryabin was a director of the applicant company at the time the invention was made.

Igor Skryabin is in dispute with his former employer and the issue of signing application paperwork has become an issue between the parties. It appears that Igor Skryabin is now refusing to cooperate with signing paperwork of any type as a matter of routine.

**PROOF OF NEED TO PREVENT IRREPARABLE DAMAGE
OR PRESERVE THE RIGHTS OF THE PARTIES**

NOTE: This proof **must** be presented where the declaration is signed by a person with sufficient proprietary interest for the nonsigning inventor (37 C.F.R. § 1.47(b)), but is not a requirement when the person signing for the nonsigning inventor is a joint inventor. (37 C.F.R. § 1.47(a)).

If a statutory bar is involved, the act or publication which is believed to constitute the bar should be identified. If a claim for priority is involved, the prior application or applications should be identified.

A diligent effort to prepare the application and obtain the inventor's signature thereon must be made, even if the application is being filed to avoid a bar or to claim priority. M.P.E.P. § 409.03(g), 7th ed.

Irreparable damage may be established by showing that a filing date is necessary to (1) avoid a statutory bar or (2) make a claim for priority, which should identify the prior application(s) involved.

Preservation of the rights of the parties may be demonstrated by a showing that the nonsigning inventor may reasonably be expected to enter into competition with the person having a proprietary interest and signing on behalf of the nonsigning inventor or that a firm plan for commercialization of the subject matter of the application has been adopted.

M.P.E.P. § 409.03(g), 7th ed.

*(if this proof is not needed and not being presented,
then draw a line through this page of the form.)*

Dear Sir,

FP 23978

Re: International Patent Application PCT/AU2004/001768

We refer to the email that you forwarded to our client on 9 August 2006 and on 15 August 2006.

We have written to Sneddens with whom we are communicating relating to Dyesol Ltd and interests associated with the Tullochs. We ask you to communicate with Tal Williams of Sneddens and to abide communications between us and Sneddens.

We consider it unfair and inappropriate for the question that you have posed to our client, to be simply put without the overall context of the issues between the parties.

We would be grateful if you would in the interim, perhaps outline to us the basis upon which you call upon our client to do anything in relation to the invention of which he is a co-inventor. You will be aware that our client was never employed by Smart Technologies Australia Pty Ltd but was a director and shareholder and we are questioning validity of any assignment that may have happened in the past.

Yours faithfully,

William Szekely
